NAVIGATING THE ACPE REGISTRATION PROCESS

1. The driver behind the ACPE Registration

- The ASEAN Leaders resolve and commitment to establish and accelerate the establishment of an ASEAN Community,

One Economic Zone under
ASEAN without barriers

- The ASEAN Community is supported by three pillars
 - ASEAN Political-Security Community, ASEAN Economic Community and ASEAN Socio-Cultural Community.
 - Each pillar has its own Blueprint, and, together with the Initiative for ASEAN Integration (IAI) Strategic Framework and IAI Work Plan Phase II (2009-2015),
 - they form the Roadmap for an ASEAN Community 2009-2015.

- ASEAN Professional Mobility is driven by the vision of ASEAN Leaders and ASEAN Member Countries as being an integral part of the ASEAN Economic Community Pillar

NAVIGATING THE ACPE REGISTRATION PROCESS

2. The Primary Instrument for ASEAN Professional Mobility – ASEAN Mutual Recognition Arrangement (the MRA)

What:

Important initiative in ASEAN integration on trade in services

Facilitate trade in services by mutual recognition of authorization, licensing, or certification of professional service suppliers.

Goal of the MRA is to facilitate the flow of foreign professionals taking into account relevant domestic regulations and market demand conditions.

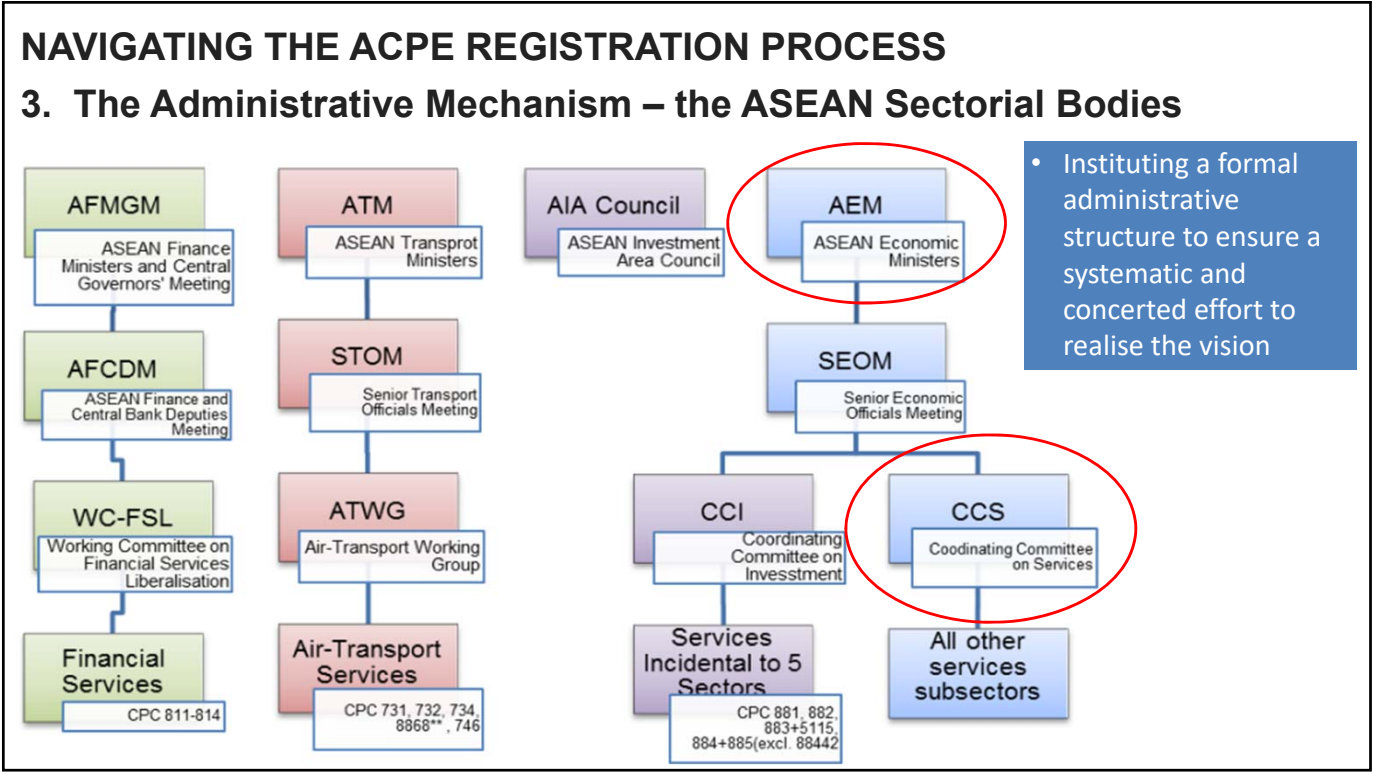

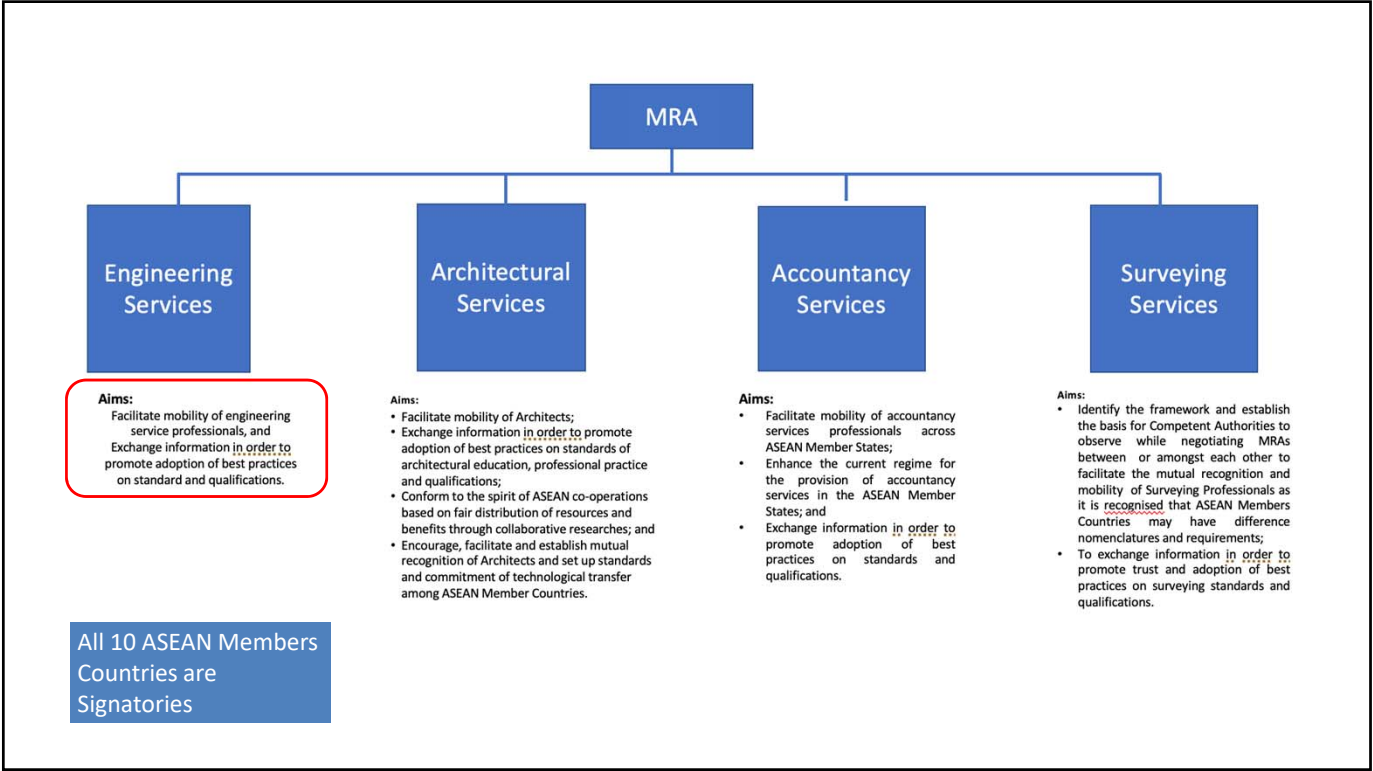

How:

- These MRAs enable the professional services suppliers certified or registered by the relevant authorities in their home country to be mutually recognized by other signatory Member States
- They are currently in various stages of implementation and follow-up initiatives, with mechanisms being established to administer the implementation of the MRAs.

8 MRAs have been concluded signed by ASEAN, namely::

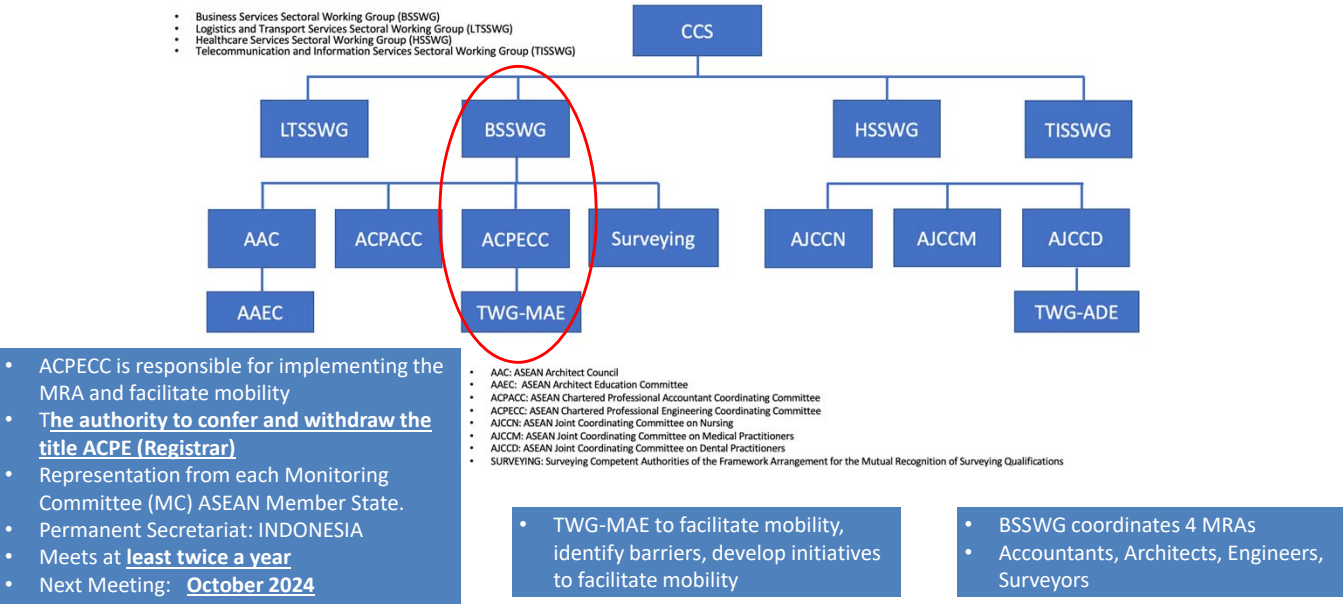

No.	MRA	Date of Signing
1.	Mutual Recognition Arrangement on Engineering Services	9 December 2005 Kuala Lumpur, Malaysia
2.	Mutual Recognition Arrangement on Nursing Services	8 December 2006 Cebu, the Philippines
3.	Mutual Recognition Arrangement on Architectural Services	19 November 2007 Singapore
4.	Framework Arrangement for the Mutual Recognition of Surveying Qualifications	19 November 2007 Singapore
5.	Mutual Recognition Arrangement Framework on Accountancy Services	26 February 2009 Cha-am, Thailand
6.	Mutual Recognition Arrangement on Medical Practitioners	26 February 2009 Cha-am, Thailand
7.	Mutual Recognition Arrangement on Dental Practitioners	26 February 2009 Cha-am, Thailand
8.	Mutual Recognition Arrangements on Tourism Professionals	9 November 2012

- The MRA essentially recognises that “a qualified professional recognised in a Member State is also recognised an ALL other ASEAN Member States”

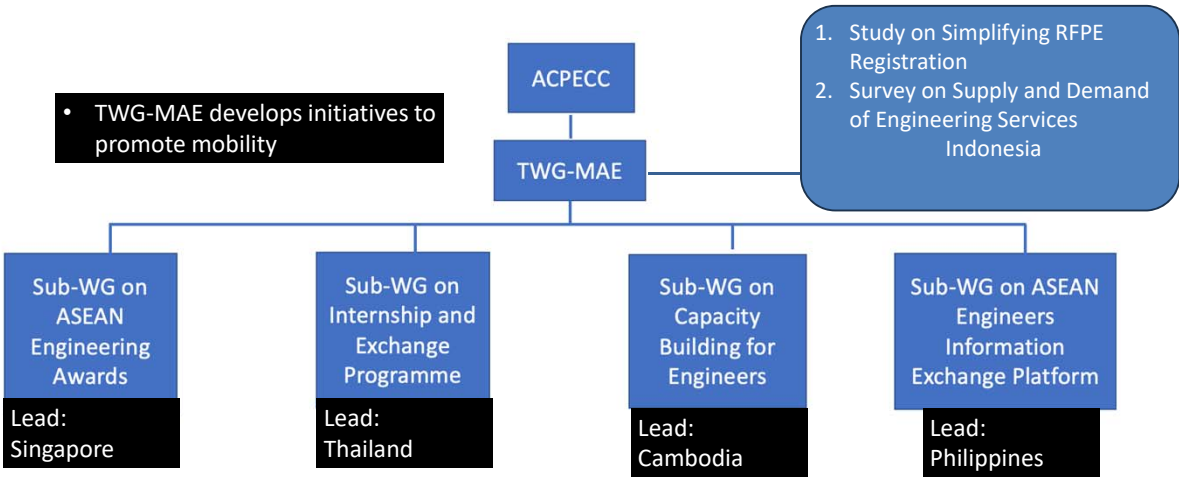

NAVIGATING THE ACPE REGISTRATION PROCESS

3. The Administrative Mechanism – the ASEAN Sectorial Working Groups under CCS

Technical Working Group on Mobility of ASEAN Engineers (TWG-MAE)

National Level Committee / Authority and Functions (NMC; PRA)

ACPECC	Approves Assessment Statement	Approve ACPE	Promote Mobility	Identify Barriers
Monitoring Committee MC	Prepare and submit Assessment Statement to ACPECC	Submit ACPE Applications	Approves RFPE	
Professional Regulatory Authority PRA	Register ACPEs	Register RFPEs An ACPE can apply directly to the host country	Monitor Compliance of ACPEs and RFPE	

- BEM is the PRA for Malaysia

NAVIGATING THE ACPE REGISTRATION PROCESS

4. Applying for ACPE

- Apply online through BEM; open 24/7
- Basic Qualifications under MRA
 - Recognised education (engineering degree)
 - Gained a **minimum of seven years** practical experience since graduation
 - Completed at **least two years in responsible charge of significant engineering work**
- Additional qualification for Malaysia – **must be a PE**
- All applications are vetted by the ACPE Screening Committee
- Results forwarded to the Malaysian NMC for endorsement
- NMC recommends to ACPECC
- ACPECC evaluates recommendations and approve
- ASEAN Secretariat issues certificates
- BEM registers ACPEs

Major issues at Application Screening Stage

- CV (experience list) not updated
- List of only job scope is not acceptable
- Need a detailed list of significant engineering project or specific activities or research works
- With description of role and responsibilities
- Over a total period of at least two years

Obtaining approval at ACPECC is not all plain sailing

- Queries of degree
- Questions on relevant experience

Categories of Engineers varies between Member States

- Although there are common categories of Engineers e.g. Civil, Mechanical, Electrical, Chemical
- There are also differences and unique categories and qualifications e.g. Engineering Physics, Engineering Surveyor
